

Hello Community,

I found this awesome video of how the OpenStreetMap-Data evolved over the ear 2008. Every flashing line represents a change in the data.

Why do we tell you this? - because this means that the map-data AndNav2 is based on is being constantly improved by the OpenStreetMap-Community!

More than words...`{iframe width="300" height="169" align="top" frameborder="0" scrolling="no"}http://www.andnav.org/articles/iframes/2009-01-25_OSM_year_of_edits_2008/{/if rame}`
