## Hello Community,

after some days of silence, we have a few news for you.

1. AndNav2 is now available right from the Android Market. (For FREE of course 📱)

- The US-Server 🇺🇸

is coming closer

- up to now all parts (except the Mainboard, which will hopefully take less than a week), arrived!

So we have some exciting times in the near future... 📱

## AndNav2 in the Market + US-Server News
